The family run FISCHER Spindle Group, is a world leader in precise, fast and powerful rotation. We are a technology leader in precision spindle construction, milling head production and the construction of air compressors for fuel cell technology. At present, we have five worldwide locations. We are a partner of the leading machine builders and serve markets across the globe. In the United States, we employ around 70 people who ensure customer satisfaction through successful, innovative products and our outstanding service.

TESTROOM TECHNICIAN

FISCHER USA, INC.

YOUR MAIN TASKS

Are you a person with a passion for precision? Would you like to be part of a highly technical team working on the most precision and high-speed spindles in the machine tool industry? Then you're in luck! We are looking to add a Spindle Test & Operations Technician to our team! FISCHER USA is a mid-sized Swiss family-owned company with group companies around the globe. At FISCHER USA you will be treated like family. A focused yet fun work environment with a great team of people and an amazing group of customers. You will get to support our customers in the high precision segments from Aerospace, Defense, Space Exploration, Mold & Die, Automotive and Energy industries. Sound interesting? Look over the details and consider applying.

Job Function:

- Setup, operate, test and inspect high performance machine tool spindles. Be the last inspector before our customer.
- Collect data, assess spindle condition and be sure all criteria are within tolerance before releasing the spindle to our customer.
- Work with both electrical and mechanical systems.
- Record vibration, temperatures, inspect runouts, measure coolant flow, hydraulic pressure, oil-air lubrication supply and trim balance the spindles.
- Work internally with many teams, from our sales team, assembly team, disassembly and engineering teams. You will work closely with our team of three in the test room but will often work in larger cross function teams to solve problems, keep abreast of the latest technology all with clear focus on quality and our customer's needs.
- Communicate often both in person and by e-mail. Use databases, work with our international group companies as well as global data acquisition systems.

YOUR PROFILE

Basic Requirements:

- Humble, honest and positive attitude
- Strong communication skills with focus on detail and customer service
- Prefers working within a team atmosphere yet be very reliable and independent
- Strong computer skills (Microsoft Office)
- Previous knowledge of machine tools, controls, hydraulics, pneumatics preferred but not required

WHY SHOULD YOU BECOME PART OF THE FISCHER GROUP?

FISCHER USA is a customer focused market leader of innovative service and design solutions for machine tools in the field of High Speed Spindle [HSS] systems. We are passionate about our work, inspired by the impact it has on our business and our customers.

Benefits:

- Clean Environment
- Family Company Culture
- Competitive Paid Time Off
- Medical, Dental, Vision, Life and Disability Insurance Options
- 401k match, Profit Sharing
